

Propel Education Strategies, Inc. was created to offer innovative strategies and solutions that guide teacher instruction and increase student outcomes as they prepare for college or career.

## AP MOCK EXAM SCORING SERVICE

Propel's AP® Mock Exam is a complete practice exam for AP courses. The exam's Free Response questions are scored by national experts, who evaluate student mock exam responses with standards consistent with those of the AP exam. In addition, this service includes classroom-ready lessons that deconstruct the Free Response questions. The lessons include student and teacher versions as well as revision activities.

### 2014 Quick Stats

- Propel's reach for 2014 spans **7 STATES**: Alabama, Connecticut, Louisiana, New Jersey, Massachusetts, Rhode Island, and Texas.
- **329 TEACHERS** administered a Propel AP Mock Exam to their students.
- Over **10,000 STUDENTS** sat for a Propel AP Mock Exam.

### What Are Teachers Saying?

"My AP scores were terrific, and they were almost exactly what Propel predicted except some students moved from a 3 to a 4 or 5."

– AP Teacher, AL

"Propel was instrumental in providing my school with a positive experience. They were very responsive to my needs."

– AP Teacher, CT

### An Affordable Solution

Propel is committed to offering affordable yet effective solutions to school districts. The AP Mock Exam Scoring Service is **\$10 per student** and includes personalized student answer sheets, processing and shipping, scoring, and reporting.

Districts only provide exam questions!

### Reporting to Guide Instruction

Following the Mock Exam, students' instructional needs are identified through feedback from experts and detailed, individualized reports, which can guide instructors to provide a more informed review prior to the actual AP exam.

Standard reporting includes:

- Teacher Overview – overview of Multiple Choice and Free Response scores by student
- Item Analysis – breakdown of Multiple Choice by frequency of choice selection
- Student Report Card – breakdown of student's Multiple Choice responses vs correct answer

In some cases, additional, customized reporting may be available.

### A Predictor of Success

The Propel Mock Exam Scoring Service provides the following benefits: (1) Students experience sitting for three or more hours in a low stakes setting, (2) National experts score the Free Response portion of the exam and provide feedback to teachers on student performance, (3) Teachers are able to identify students' strengths and weaknesses on both the individual and class level through Propel's full reporting. These reports can be used to guide instruction as students continue to prepare for the AP exam in May. Propel is a scoring service, not a comprehensive program. There are many factors that can influence a student's AP score between the AP Mock Exam and the actual AP exam.
